The Kia Stinger is the flagship of the Kia range, and raised a lot of eyebrows with its back-drive five hatch layout ports when it arrived in October 2017. This was also only in time to fill the void left by the end of the Falcon and Commodore built by Australia. From the launch it arrived in six different variants divided between four turbo cylinders and two-turbo V6 drivetrains. The range currently extends from \$50,050 Stinger 2005 to \$63,960 Stinger GT (red leather). Rather than being developed to compete with the legendary Aussies, Stinger was benchmarked against Audi A5 Sportback and BMW 4 Series Gran Coupe. 2022 2021 2020 2018 2018 See cars for sale The price range for Kia Stinger varies according to the trim level you choose. From \$50,050 and going to \$63,960 for the last year the model was produced.
