 OPERATION MANUAL (English)  
 1st Edition (Revised 2)

**The Synthesis of Aspirin**

**Purpose:** To synthesize aspirin, a common analgesic drug. The experiment actually involves three parts: The synthesis of aspirin, the isolation and purification of aspirin, and the estimation of the purity of the final product.

**Synthesis:** The synthesis involves the reaction of salicylic acid and acetic anhydride in the presence of a catalyst, phosphoric acid, H<sub>3</sub>PO<sub>4</sub>.

**Isolation and Purification:** Once the aspirin is prepared it must be isolated from the reaction solution and purified. Salicylic acid is only slightly soluble in water and is not completely removed in the washing step. Final purification is accomplished by the process of **recrystallization**. The impure aspirin is dissolved in warm ethanol. The solution is then cooled slowly, and the aspirin crystallizes out of solution leaving the salicylic acid and other impurities behind.

The acetic acid and phosphoric acid are water soluble and can be removed by washing the aspirin with chilled water. Salicylic acid is only slightly soluble in water and is not completely removed in the washing step. Final purification is accomplished by the process of **recrystallization**. The impure aspirin is dissolved in warm ethanol. The solution is then cooled slowly, and the aspirin crystallizes out of solution leaving the salicylic acid and other impurities behind.

**Estimation of Purity:** The melting point of a compound can be used to identify it and also to estimate its purity. Generally an impure compound will exhibit a melting point which is *lower* than that of the pure compound. Therefore, if your aspirin melts at a temperature below the accepted melting point two possibilities exist: either your product is impure or it is not aspirin. A pure substance will melt sharply over a range

Standard Operating Procedures (SOP) Manual for Calibration Department30. Hence, we decided to create this SOP ToolBox to disseminate our 8-Step SOP Development Life-Cycle and best practices at an unbelievably low price.I always say, writing an SOP is somewhere between art and science. Standard Operating Procedures (SOP) Manual for Quality Department29. Again, the material is allowed for boiling process with the addition of water at a high temperature of 266°F and the fatty acids are filtered in this process. SOP ToolBox: If you are reading these lines, I am sure you are looking for Standard Operating Procedure guidelines or SOPs itself. Standard Operating Procedures (SOP) Manual for Vigilance Department17. Standard Operating Procedures (SOP) Manual for Front Office12. Finally, the quality control teams inspect the product to ensure its quality. Standard Operating Procedures (SOP) Manual for Safety Department14. In both the cases, searching in internet will not be yielding any great help. Standard Operating Procedures (SOP) Manual for New Product Development Department27. Standard Operating Procedures (SOP) Manual for Facilities Management Department16. So far you may be clueless on where to start and how to progress on an SOP? Because no company shares their SOP Development Process and certainly don't share their SOP Documents. Standard Operating Procedures (SOP) Manual for Administration Department11. The best way to develop an SOP is creating one for yourself. Steps involved in production process: Raw Materials Preparation Boiling Salting Strong change Mixing Cooling and finishing Milling Quality Control and Packaging Machines used in this industry: Sigma Standard Operating Procedures (SOP) Manual for Security Department15. Now, the glycerine is extracted from the kittle and a strong caustic solution is added with the soap. Due to COVID 19 crisis, the health awareness has increased rapidly with the additional of some government regulations, in order to maintain the personal hygiene and cleanliness in food processing, hotel and product manufacturing, these factors are expected to drive the industry market into significant growth. Standard Operating Procedures (SOP) Manual for Accounts Department2. Standard Operating Procedures (SOP) Manual for Finance Department3. Standard Operating Procedures (SOP) Manual for House Keeping13. Comparingly, household detergents are the major segment, which has the huge demand in the global market. Standard Operating Procedures (SOP) Manual for Maintenance Department Production Process:Oils and fats, soda lye or potash lye, brine, and other additives such as sodium carbonate, sodium silicate, dyes, perfumes, etc., are the major raw materials used in manufacturing soap and other detergents. Standard Operating Procedures (SOP) Manual for Information Technology (IT) Department19. Therefore, top leading companies are investing huge in R&D for innovative product development in order to furnish the unmet needs of their customers. Standard Operating Procedures (SOP) Manual for Learning & Development Department10. This article offers a comprehensive examine of “Soap and Other Detergent Manufacturing, SOP Manual”. Now the slabs are allowed for milling process, where according to the required size the slabs are cut into smaller bars and then, the bars are undergone for stamping and wrapping. Standard Operating Procedures (SOP) Manual for Legal Department18. Boiling is the first process involved in this production, were Fats and alkali are boiled in a large kettle, as a result or reaction the boiling process produce soap and glycerine. Standard Operating Procedures (SOP) Manual for Research and Development 28. In this industry, the product that produced with innovation, fragrance, antibacterial, quality and standard are the major key facts, which determines the success and demand of the product in the market. Then, some other additives such as abrasives and fragrance are mixed and they are poured into mold and allowed for cooling process in order to harden into a large slab. Standard Operating Procedures (SOP) Manual for Sales & Marketing Department20. Standard Operating Procedures (SOP) Manual for SRM Department24. Standard Operating Procedures (SOP) Manual for Supply Chain Department25. Then, the salt is mixed with the substance in order to separate the soap and glycerine, at this process the soap will rise at the top and the glycerine is settled in the bottom. Standard Operating Procedures (SOP) Manual for Customer Service4. Standard Operating Procedures (SOP) Manual for Training Department9. This industry primarily engaged in production of varieties of soaps and other detergents, such as dishwashing detergent, laundry detergents, and natural glycerine. Standard Operating Procedures (SOP) Manual for Design & Engineering 21. Standard Operating Procedures (SOP) Manual for Procurement Department22. Asia-Pacific region dominates the global market in terms of thriving the demand of the product and this region are expected to have a significant growth in upcoming period. This will not be the case after you diligently go through this SOP ToolBox. Standard Operating Procedures (SOP) Manual for Production23. Standard Operating Procedures (SOP) Manual for CRM Department5. These products act as a washing or cleaning agent, which are derived from one or more salts of oily acids and they are majorly used in products for personal hygiene, clean washing, dishwashing as well as laundry. Standard Operating Procedures (SOP) Manual for Credit Department6. Standard Operating Procedures (SOP) Manual for Treasury Department7. Standard Operating Procedures (SOP) Manual for Human Resources (HR) Department8. Our charge ranges from USD 5000 to USD 50000 depending upon the number of processes to be covered. Certainly, this is not affordable to small and mid-size organisations. Standard Operating Procedures (SOP) Manual for Warehouse26. We have summarised all our secrets here to get you started and to deliver a stunning SOP to your management.

Industry’s Subsector: Bar soaps manufacturing Dentifrices manufacturing Detergents (e.g., dishwashing, industrial, laundry) manufacturing Dishwasher detergents manufacturing Glycerine (i.e., glycerol), natural, manufacturing Hand soaps (e.g., hard, liquid, soft) manufacturing Laundry soap, chips, and powder manufacturing Mechanic’s hand soaps and pastes manufacturing Presoaks manufacturing Scouring cleansers (e.g., pastes, powders) manufacturing Soaps (e.g., bar, chip, powder) manufacturing Teeth whiteners (e.g., pastes, gels) manufacturing Toilet soaps manufacturing Toothpastes, gels, and tooth powders manufacturing Waterless hand soaps manufacturing 1. At Fhysics, we write SOPs day-in and day-out for companies across the globe including some of the Fortune 500 organisations. The global soap and other detergent industrial market had a constant and steady pace of growth in past years and this expected to continue in future by growing at a CAGR of 8.83%, which projected to generate an annual revenue of \$207.56 billion by 2025.

Textile Mill Industry: All establishments engaged in the preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; in manufacturing broad woven fabrics, narrow woven fabrics, knit fabrics, and carpets and rugs from yarn; in dyeing and finishing fiber, yarn, fabrics, and knit apparel; in coating, waterproofing, or otherwise treating fabrics; in the ... Limit 5 per member. The Huxton Dual Motor Lift Chair is smartly designed for comfort, function, and style. Featuring shapely roll arms, this traditionally designed chair offers a contoured seat and back for premium comfort. CEO Discovery is a Professional Relationship Platform SM that enables Executives and Financial Sponsors to find, connect with and build relationships with each other. Executives include senior operating professionals such as chief executive officers (CEOs), presidents, chief operating officers (COOs), division heads and other business leaders. Delivery, setup and packaging removal included. Setup is in accordance with manufacturing guidelines so product is ready for intended use. \*Our delivery coverage is within 50-miles of a Costco Wholesale warehouse and includes Alaska. ...
