Gre quantitative practice with answers

Gre quantitative practice test with answers. Gre quantitative reasoning practice questions with answers.

To answer the questions of quantitative comparison, you need to compare two quantities and then choose the declaration from a list that describes the comparison more accurately. See the following information for applications for quantitative comparison. Directions: Compare quantity A and quantity B, using additional information centered above the two quantities if such information is provided, and select one of the following four response options: (A) quantity A is greater. B) The quantity B is greater. C) The two quantities are the same. D) The relationship cannot be determined by the information provided. For example, 1: 0
