Child protection policy uganda pdf

Child protection policy uganda pdf. World vision uganda child protection policy.

Jump to the main content National orphans and other vulnerable children's policies (NOP) is the official policy governing the OVC of the Ministry of Gender, Labor and Social Development (MGLSD) of the Republic of Uganda. The policy interprets a vision of a company in which all the orphans and other vulnerable children live at their full potential, where their rights and aspirations are satisfied. The government of Uganda, through MGLSD, is mandatory to promote the social protection of poor and vulnerable children. These children include orphans, those who live in the streets, those who work in conditions of work exploitation, as well as those who suffer sexual abuse and other forms of discrimination. The HIV / AIDS pandemic has greatly contributed to the enormous number of orphans and other vulnerable children who are now overwhelming the support systems for extended families in the country. This situation is exacerbated by the conflict in some parts of the country and other previsible diseases such as malaria and tuberculosis. The NOP contributes to the improvement of the quality of life of the OVCs and their families. Inform the legal and administrative programs and actions that influence security, well-being and development of orphans, vulnerable children and their wagons-donors. It is also an essential part of the strategic investment sector of the social development sector (SDIP), which is an integral part of the poverty square framework (PAEF). The implementation of this policy will involve other government ministries, local authorities, civil society organizations, the private sector, orphans and other vulnerable children, even the communities and families in which they live. The Government of Uganda will concentrate on the services that are the --fective costs and have the greatest impact on the reduction in vulnerability and improving the well-being of orphans and other vulnerable children to promote shareholders' equity. The interventions that build capabilities and improve quality and efficacy will be supported and implemented in an integrated way. Focus's priority areas are care and support, minor protection, education, health, food safety and nutrition, psychosocial support, socio-economic security, conflict resolution and peace building. These interventions constitute the package of essential services for orphans and other vulnerable children. A © Uganda Mimistry of Gender, Work and Social Development This national policy of the children of Uganda was developed to coordinate the efforts of the various sectors that have a direct and indirect mandate on children and offer a complete package of services that includes all The four of the rights of the child's cardinals (to survival, development, protection and participation) in a multi-sectoral approach. The development process of national children policy has identified five areas of fundamental priority that have informed political objectives, strategies and interventions. The four priority areas are hinged on four cardinal rights of a child: survival, development, protection and participation. The fifth priority area is the strengthening of the system that is the cross-nature cutting / support. The objectives under the childhood assistance and the protection priority area include: Strategy 1: Scale the provision and improve access to family strengthening services and support for families in particular vulnerable families strategy 2: improve the Permanence planning for children, including those who are private à €
