## Alcatel one touch fierce 2 stuck on startup screen

previous next order by votes my phone, alcatel one touch does not restart. comes to the white load screen and never passes it, complains while trying to restart it too. I know it's a virus and I had it before and I sent it away and I deleted the data/factory reset and there's no luck yet, what do I have to do? Is there a way to fix it without sending it away? If you canceled it with a factory reset, it's not a virus. Sounds like a dirty phone. had 4 or 5 alcateli and everyone sucked. I'll never buy one again. the only viruses of the phone or malware are really just to steal information, not kill someone phone and as I said, a reset inflates everything, deletes everything and restores it from a saved factory image. No viruses can also write to that area. I have the same problem and I didn't find the way to hard reset the phone. He hoped that someone knew what should be done, however waiting. It was the same problem my alcatel d9 his show only the logo, but it will not begin. the best what my friend has engraved doing is that it will download the flasher must be the model of your mobile and romantic this must be 2 firmware must download and it must be the phone to detect from your laptop or pc. If the pc does not dech your mobile phone must be downloaded also the mediatek and I have made everything install and my friend engel do it for me it is like updating the all bcoz mobile software must not start this reasonis the model of any mobile and I made it my mobile again as new e-mail me ercanricaatgmaildotcom I can discuss some Download ROM/Flasher must be the model of your gadget for installing the firmware this is the way to solve it not by manual rewinding that will not help you need pc My phone, Alcatel One Touch does not restart. You get to the white load screen and never passes, complains while trying to restart it too. I know it's a virus and I had it before and I sent it away and I deleted the data/factory reset and there's still no luck, what should I do? Is there a way to fix it without sending it away? You need to log in or register to answer here. J Question Tracfone alcatel MyFlip cell. Restore external display. Phone General Discussion 1 Apr 15, 2014 M alcatel un Touch idol X (6040d) Phone General Discussion 1 Mar 5, 2014 This article will give a set of instructions onhard/soft/remote reset Alcatel One Touch Fierce 2 7040N. Read this article and choose a method and restore your Alcatel One Touch Fierce 2 7040N. (all these methods have been tested by us.) Read more – Increase the RAM size Alcatel One Touch Fierce 2 7040N after the root? Alcatel One Touch Fierce 2 7040N is one of the most popular Devices In series. But sometimes this device can make mistakes. Then we have to take care of them. In that situation, Hard and Soft Reset gives us the best opportunity to solve the problem. There are five ways to factory Reset Rigid Alcatel One Touch Fierce 2 7040N Reset Normal Factory – Delete or delete all things, but not as a hard reset. If the device is slow, heating, then use this. Hard factory reset – It will eliminate all things in the device permanently. If you can't switch startup or want "Force Reset" then you can use this. Video Guide – under Reset Remotely – If your device has stolen then this is the best method. Restore device from PC – You can restore your device from your PC or laptop. Flash Stock Rom -This is the most advanced method. We can also fix system errors. In this, we install system software again on your device. Note: How to get back to Alcatel One Touch Fierce 2 7040N We have an option to get full backup on your device and you can get contacts, calendar, SMS, call logs, photos, videos, music, browser bookmarks, albums, audio, app data, WiFi passwords and app setting for backup – click herea Hard Reset Alcatel One Touch Fierce 2 7040N[Normally] Step 1, Take your Alcatel One Touch Fierce 2 7040N Device and go to the menu and then go to the adjustment. Find "Backup and Reset" / "General Management" Tap the "Factory data reset" Tap the "Reset Device" and start the reset process. Factory Restoration / Rigid Alcatelo a touch Fierce 2 7040N Step 1, note – We recommend you get the full back. Take the device and turn it off by pressing the power button – please wait until you vibrate or Ring Now press the power button + Volume Up to the android logo or Alcatel One Touch Fierce 2 7040N appears the logo. Power key = Enter Volume Up = go to Volume Down = go down to learn more – Increase Rom internal Alcatel One Touch Fierce 2 7040N after root Step 3, Go down and Tap "Add Data / Factory reset" by clicking the power key. Go down and select "YES–delete all user data" by touching the power key. After pressing "YES–delete all user data" your Alcatel One Touch Fierce 2 7040N will start performing a reset. Do not remove the battery of the device during this task. You will need to set a date and time, language and access your Google account after reset. Restore Alcatel One Touch Fierce 2 7040N remotely Before, go to Android Device Manager and sign in to your Alcatel One Touch Fierce 2 7040N Google device account. You can see there is a box of options. Click "Delete" in the box. Click onand confirm it. You will start restoring the Alcatel One Touch Fierce 2 7040N device. Reset Alcatel One Touch Fierce 2 7040N – Video We cover all sides of reset to Alcatel One Touch Fierce 2 7040N Device. But if you feel the fear of resetting your Device then you can watch the video below Click here Reset Alcatel One Touch Fierce 2 7040N from PC (advanced) SDK – Android Software Development Kit. In this toolkit, you can restore the Device finely using a data cable. you have to follow simple steps. Go to this link and Download SDK and type "ADB shell" and type other codes to reset. Alternative Software – In this option, you are able to make a factory reset of your Alcatel One Touch Fierce 2 7040N using your laptop or computer (recommended) Alcatel hard reset One Touch Fierce 2 7040N whole device (advanced) In the three methods mentioned above, we only reset but in this, we are going to replace the entire Android system. If you buy an Android device Alcatel One Touch Fierce 2 7040N, then it has a stock ROM. The original ROM and the official ROM that a device has. So, installing Stock ROM does not prevent the warranty. We found dedicated posts on Stock Roms flashing on "Gogorapid". Go to that site and Flash a new Rom to your device. Hello, however, I reset my device successfully, but I forgot to go back on before reset. I want to know, can I get my data now? WhatsApp messages, Viber? Yeah, you can get some of the data. but I can'tyou can get all the data. Try this. Remove Pattern Lock, device password Many people who suffer from this problem. They don't know how to move Pattern Lock from their devices. If you use any third-party apps to set Pattern Lock then uninstall first. If you do not use an app, then you might have been set up through the device setting. Try to find it and remove it. If you can't find the final solution then is "Hard reset". This process will run after switching off the device. After restoration, Autoboot or bootloop or auto restart Before, remove the battery of the device and wait 5 min. Then put and press the power +Volume Up + home together and select factory reset. If you start automatically or restart car – it can be power switch is faulty and is always depressed. Maybe your device case is pressing on it. So take that case off for a while. After trying to go in recovery mode. If it doesn't work then install Stock Rom After resetting the factory my device can't connect to Internet Q: I ran reset my Alcatel One Touch Fierce 2 7040N Device. Now I can't connect to the internet and the sim card has not been recognized. There is an error code also "E: failed to mount /preload" A: Contact the severs network provider (SIM). If there is no msg error then you should ask the internet settings for the device. A: Reset the smart device again. If it has failed or goes wrong again, then try to flash a new stock, Rom. The warranty of the device will be nothing. Why?Rom is official. – Stock Rom. Stuck at Alcatel One Touch Fierce 2 7040N Logo Screen your device can be damaged. So, I think you need to install Stock Rom again. The warranty of the device will be nothing. Because Stock Rom is default and official Rom. – Stock Rom. Fix – Device that says "NO COMMAND" in recovery mode The recovery of the device can be damaged. So, I think you need to install Stock Recovery again. The warranty of the device will be nothing. Because Stock Rom is default and official. – Stock Recovery. Recovery.
