

I'm not robot

Pearson MyLab & Mastering Product Details Before purchasing Pearson MyLab & Mastering products ensure you have the correct ISBN. Multiple versions exist including customized school versions and registration is not transferable. You may need a CourseID provided by your instructor to register for and use these products. Access codes are only included with purchases or rentals from Pearson; check with the seller before completing your purchase. Used or rented books with access codes may have already been redeemed, you may need to buy a new one. Purchased access codes from sellers other than Pearson carry a higher risk of being incorrect or previously used. This edition of Berk's Development Through the Lifespan provides essential information on lifespan development. It includes features such as engaging writing style and practical applications to help students relate subject matter to their lives. Diana Berk's research has been supported by U.S. Office of Education & National Institute of Child Health and Human Development. She has published in several prominent journals including Child Development, Developmental Psychology, Merrill-Palmer Quarterly and Early Childhood Research Quarterly. Her studies have received public attention leading to contributions to Psychology Today and Scientific American. Berk serves as research editor for Young Children and consulting editor for the mentioned Journals & Volumes.
