A researcher must know two important things before the selection of research/thesis topic. The researcher must know the sources of data collection and the type of statistical technique used in the analysis. Many a times, it is seen that students submit the research topics without having clear idea about the sources of data collection and the appropriate statistical technique for the analysis. Such students face terrible issues once they start working on the project. Therefore, students must be careful while submitting the final topic. A list of important topics of research on finance is provided to help the students in selecting their research/thesis topics. Impact of privatization on non-performing loans of banks in (country name) Risk assessment and decision making in business and industry Impact of awareness on the choice of short-term financing (A case study of yarn merchants) Impact of privatization on profitability & capital employment of stated owned enterprises in (country name) Enterprise risk management (an essential process for sustainable profit and growth) Audit fee expense and size of the company in (country name) Determinants of capital structure in cement industry of (country name) Impact of gross loan portfolio on microfinance value saving comparison between microfinance institutions and microfinance banks Impact of interest rate on stock market A study based on the effects of interest rate on share price Comparison of micro finance institutions, micro-finance banks and micro finance institutions and development of entrepreneurial skills Empowering women through microfinance Banking and currency crisis causality from banks crises to currency crises Patronage factors of Islamic banking system in (country name) Analysis of profitability of banks: comparative study of domestic & foreign banks in (country name) Financial exclusion: market versus self-driven causes A study on the inhibitions experienced by existing and non-existing users towards online banking in (country name) Correlation study between measures of financial performance of banks in (country name) Comparative study of credit scoring methods between local and foreign banks of (country name) Market interest rate and commercial bank profitability in (country name) Determinants of corporate dividend payout policy Effects of free cash flow on profitability of firms Fundamentals and stock return: Empirical study of cement industry in (country name) Relationship between stock prices and rupee dollar parity in (country name) The relation of credit risk rating with financial ratios in (country name) Factor influencing individual investor behavior: the case of the stock exchange (e.g. New York Stock Exchange) Determinant of dividend payout ratio: A study of fertilizer sector Fundamentals and stock returns in (country name) The differential impact of Islamic banking on car loans and house financing through banks in (country name) A study on relationship between stock market development and economic growth in (country name) Effects of mergers and acquisition in banking sector of (country name) Impact of privatization of banks on profitability The impact of interest rate risk on the profitability of Islamic and conventional banks Relationship between cash flow and capital spending in pharmaceutical industry of (country name) Effect of fund size on mutual fund performance Comparison of financial performance in banking sector Determinants of capital structure: A study of sugar and allied sector of (country name) Can risk aversion indicator anticipate financial crises Cash flow and capital spending relationship: evidence from automobile sector Targeting consumer segment: A sustainable growth for mutual funds Relating risk factors with contemporary distribution channels Impact of privatization on profitability and efficiency of banks in (country name) Money supply chain and stock prices A comparative study between micro-finance banks, micro-finance institutions and rural support programs in creating self-employment in (country name) Validating of CAPM in predicting stock prices at stock exchange (e.g. New York Stock Exchange) Fundamental variables and stock return: evidence from sugar and allied sector of (country name) Which is better indicator of stock returns?
