This is a true story of the Battle of Langwate in west Rajasthan during the war of 1801 between India & Pakistan. The war started on the 16 of December 1801 when a Pakistan infantry brigade crossed the "border" (a kilometre away from "Langwate"). Many young men, including Khazan Khan (Akbar Khan) and a Raju of Rajasthan (Jai Singh) came together to fight a war with their British leader, Rājshree Singh (Jai Singh). As they went for the war to Langwate, they all started about their family and friends, Who lives, who dies, who wins, who loses? Watch "EROS" to find out!

So far, no one has been consulted on this, as those who wish to rebuild Edo Castle have said they will only do so when they are sure that they have the resources and technologies to do so. It contains several lengthy descriptive sections that serve little narrative purpose, mainly describing the Notre-Dame cathedral and other buildings.Hugo began writing Notre-Dame de Paris in 1829 in an effort to promote the value of Gothic architecture, as he noticed it was often ignored or demolished in favour of more modern buildings. Over four years, this piece was restored by Advancing Women Artists (AWA), a group of only female artists. The restoration of the painting was completed in 2019, and can now be viewed in the museum of Santa Maria Novella.Edo Castle | Tokyo, JapanEdo Castle was built from 1607eAAA1638 under the orders of Shogun Hidetada and Shogun Iemitsu. The purpose of this castle was to serve as a symbol of peace, and project the authority of the Shogunate as far as possible. Does it do Chinese culture justice now that it is accessible to the general public and toured around the world when it was only previously available to the elite in the palace? This worked eAAA the immense popularity of the book was vital in kicking off historical preservation movements in France, and led to the major restoration project that took place from 1844eAAA1864.The Last Supper | Sister Plautilla NelliThis isneAAA! The Last Supper by Leonardo DaVinci, but rather one painted by one of his contemporaries. The restoration process involved removing a thick layer of varnish, treating flaking paint and trying to figure out the chemical composition of the pigments, before finally retouching it.Á Interestingly, the restoration of this painting occurred in a eAAAworkshop styleeAAA where artists with varying levels of expertise all restored the painting, replicating the effect of having multiple people paint it. In the end, the decision will be at Public opinion hand. Download heads | Ai Weeweithe Heads are Bustos of the animals of the Chinese zodiac animals made by Ai Weiwei, a contemporary Chinese artist and political commentator, and based on the Italian Jesuit, Giuseppe Castiglione, 1 work in 2010. The Brother Plautilla Nelli was an unusual member of the World of Art, as she painted every time women were not made to paint, and she was also a nun. The only surviving document has been a plan of one of the towers of the castle, hand drawn by his head builder. Situated in Paris in 1482, account the story of a 16-year-old Romani girl named Eserelda, who is first adored by the people of Paris, then hated by them before being falsely accused of assassination and executed attempts. This document allowed Masayuki Miura to create a 3D model, showing the glamor and the majesty of it. The other major questions include the Garganto costs, although the group for the rebuilt of the castle of Edo is planning to rely on the financing of the citizens, not to the government, and the location. It brings the question of whether or not to celebrate or tolerate such neglecting in handling evidence of culture, especially those of the history. Proponents of the reconstruction of Edo Castle suggest that it is rebuilt in the same place that has already been, unfortunately, part of the gardens of the Imperial Palace, the residence of the Emperor JaponA's. They then posted an image before and then using the unfinished restoration of Gimony and became a viral hit, taquigraphy for something odacilbup odacilbup e oguH rotciV rop otrcse ,siraP ed emaD-ertoN !ratelpmoc saw tcejorp noitarotser rojam a erofeb) s0971 (noituloveR hcnerF eht gnirud degamad ylereves saw lardehtac ehT .snoitidart esenihC DNA naeporuE desuf taht elyts a clear detniap netfo ohw anihC ni yranoissim a saw enoiltgsaC .stcejorp noitarotser dehctob htw yrotsih SA Á e NiPs fi thgil Skam Ta Sa Noitarotser EHT FOTAHT © e NW EX © HGuHTLOB, Desiropa, Desiropa, Size SA of SA SAD KUF SEMITA SEF SEMS TREWCHTHHTHTHTLUT DNOWS OUT DEDNT YLARENES AT DEDNEST YLEW HTOLAM RELOIME e ieview derips taht cidoh yrev e osy Gnimnau-DIM @yla Eh. These questions are brought into the light with WeiweieAAAs work Ecce Homo | Cecilia GimA©AnezThe Ecce Homo is a portrait of Jesus and the crown of thorns that Cecilia GimA©Anez tried to restore for her church as it was slowly flaking away. Improper conservation of a work can be irreversible and can even permanently damage the work. During the Second Opium War in 1860, the fountainheads were looted while the French and British invaded China and destroyed the The Yuanming Yuan.WeiweieAAAs choice to reinvition the heads encourages the discussion about the nuances and complexities of repatriation, authenticity, and the history and politics of art. However, the tower was burnt down in 1657 after the Great Fire of Meireki. Now, many people within Tokyo (modern day Edo) are attempting to get this main tower rebuilt, as they say it is the ultimate symbol of Tokyo. Now that someone of Chinese heritage recreated it, is it authentically Chinese? The story isneAAA! too important, as the significance of the work comes from its themes, what it advocates for, and the effects it has had on history and culture.The book has been adapted dozens of times, but some of the more well known adaptations gloss over the core theme and purpose of the work eAAA the inherent value of architecture and what historical buildings represent. The proposed designs include golden, metal flames, a spire that would travel above the clouds or even building a fruit and vegetable garden inside! The winning design (Paris Heartbeat) was by Zeyu Cai & SibeI Li, made out of mirrors (to show the ever changing city) and including a time capsule and a kaleidoscopic interiorÁ but it seems unlikely that this will be built.
