(and) U.S. production numbers continue to disappoint the market, producers are squeezing as much production as they can.Mohsin Ali Shaukat:Leader Vs Malevolent "When people with bad intentions try to enter in your inner universe, in their heart they know who you really are !! and who they are actually, these small minds are insecure because they know your qualities and capabilities so what trick they play is, just because they came in your life, spent time with you, they know your weak points as no body is perfect and they also know that you are a winner with great mind and ideas and can perform better even if they have known what's in your mind they can not do that the way you can do, then they try to come from some other ways and you show through your attitude by winning again and again, by not losing your faith in you and your abilities that you are unstoppable... This is what makes them disappoint, the sad part of the picture is, you are the one with the good intentions whatever you are but you never think bad of anyone, not even for those who don't want to see you happy or successful, you just kept going even they chase you. So be in the picture, stay on the right track with good intention and keep going, if it's in their nature that they have been chasing you, they will always be chasing you ..... YOU are a leader YOU are a person with great personality YOU are the one, people think of and spend time and energy to know about you, and wish to be like you but you are busy in your life, you don't have time for small things KEEP GOING !!"Luis Lopez:I never thought that after a year you would disappoint me like this, you all leave a lot to be desired.Richard Russell:I've got a lot of people that care about me, and it's going to disappoint them to hear that I did this, I would like to apologize to each and every one of them. Just a broken guy, got a few screws loose, I guess. Never really knew it until now.Prime Minister Alexis Tsipras:Some have bet on a third bailout, on the possibility of a third bailout in June. I'm very sorry but once again we will disappoint them. / ,dis əˈpɔɪnt /to fail to fulfill the expectations or wishes of: His gross ingratitude disappointed us, to defeat the fulfillment of (hopes, plans, etc.); thwart; frustrate: to be disappointed in love.to bring or cause disappointment. Classics teachers say they are disappointed by an announcement to drop the subject from NCEA Level 1, and cut Latin from NCEA entirely.Small ancient greek lekkythos decorated with groups of concentric. Minister of Education Chris Hipkins announced a series of changes to NCEA level 1 yesterday to address what he described as an increase in "specialisation", which was causing students to narrow their options too soon. The changes, which are expected to come into effect in 2023, follow a review into NCEA and consultation with thousands of New Zealanders, from within and outside the sector. READ MORE: \* Teachers hit back at proposed NCEA level 1 changes \* Reduced NCEA requirements a 'relief' for New Plymouth students \* Extra NCEA credits to help students after Covid-19 disruptions However, New Zealand Association of Classical Teachers president Rob Griffiths told Morning Report the consultation was "mere tokenism". "The decision had obviously been made before the consultation even started. That's what really drives our disappointment and frustration." Some of the considerations the ministry says it gave to the changes were whether the subjects provided broad, foundational learning, and preparation for advanced study. Griffiths argued that was contradictory because classical studies at Level 1 covered a range of areas, including literature, arts, religion, philosophy, and politics, which couldn't just be ticked off in other subjects.Teachers have spoken out against changes to level 1 of the NCEA school qualification. "Latin is essentially the base of the English language, but more importantly, it's a subject which teaches the skills of mental processing, analytical reasoning, critical thinking - it's exactly what we try to develop in our students." They say it's not broad or foundational, I don't think they even know quite what they mean by foundational. They celebrate the fact they're reducing the number of subjects in an attempt to make it broader, how does that make sense?" On the other hand, the ministry said Latin was being removed due to low and declining enrolments. "Less than 200 students from around 10 schools study Latin per year, with only 25 students continuing through to Level 3," it said. Griffiths said relegation of national qualifications was compromising students' learning. "The issue is that they're effectively going to lose a year of learning in Level 1 with this proposal, and so when they go to study their Level 2 and 3 subjects, they're not going to have that foundational knowledge and that conceptual understanding. "Our international measures in educational performance are totally on decline. "I actually think this is an example of an educational system in crisis. We need to increase academic rigour, we need to have higher expectations of our students and we need to push them, stretch their minds. Most importantly, we need to put knowledge back into schools and our subjects rather than takes it out." In the announcement yesterday, Hipkins said these amendments would support students to gain the skills they needed before moving to specialised learning at Level 2. "These subject changes are carefully designed to give students a broader foundation at the start of NCEA and more pathways for their learning, as well as reducing workload for teachers and students."Education Minister Chris Hipkins. Hipkins said it marked the beginning of a series modifications that would be made gradually over the next four years. The number of subjects offered for assessment will also be reduced by 10 to 32. In addition to classical studies, art history, media studies and psychology will also no longer be offered at Level 1. Chemistry and biology are being combined into one subject, and physics combined with earth and space science. The ministry said this would provide for more coherent learning, and reduce the number of standards from 41 to 16. Agricultural and horticultural science will have new standards developed. Māori Performing Arts is a new subject at Level 1. Hipkins said the ministry continued to develop the subjects derived from Te Marautanga ō Aotearoa (TMOA), the Māori medium curriculum. These subjects include Pāngarau, Hauora, Putaiao, Te Reo Rangaitira, Tikanga-ā-iwi, Hangarau and Ngā Toi. No changes were proposed to those subjects during public consultation on the provisional subject list, the ministry said, and final confirmation of TMOA subjects was expected in early 2021.
