# Seminole county inspections

We strive to provide the most accurate and up to date inspection information. The information posted on this site is believed to be accurate and reliable as of the time of posting. If you have any questions or comments about a specific inspection or about Environmental Health programs in general, please contact the local County Health Department. Southwest District Environmental Health Director Welcome to the City of Casselberry Building Permits.This service enables citizens and contractors to complete the most common steps in the building permit process online, including scheduling inspections and viewing inspections results. Please visit the Building Department to pick up your building permit package. B&N provided pedestrian bridge inspection services for Seminole County from 2007 to 2014 under multiple Continuing Engineering Service contracts. Working as a subconsultant to Atkins (PBS&J), B&N inspected pedestrian bridges, underpasses and culverts over multiple cycles. The wide range of bridge types inspected under these contracts included: steel truss, steel cable stay stiffening truss, steel girder, pre-stressed concrete multiple girder, concrete multiple box beam, concrete multiple box culvert underpass, concrete slab, metal culvert, and timber multiple beam. Using industrial rope access techniques combined with mechanical access equipment, B&N teams provided:80+ National Bridge Inspection Standards (NBIS) inspectionsFDOT PONTIS inspection records for structures over state routesFracture Critical inspectionsInitial and warranty inspectionsInstrumentation and testing of bridge components, including cable staysRepair/maintenance recommendationsTraffic control design for structures over roadwaysNotable structures that were inspected under these contracts included two major truss bridges over I-4 and US 17/92, a two-girder fracture critical system over I-4, and multiple structures over and under the Cross Seminole Trail, Seminole Wekiva Trail, and other pedestrian facilities. CODE ENFORCEMENTCode Enforcement is made up of plumbing, mechanical, electrical, building inspections, high weeds, dilapidated structures, junk and debris, abandoned vehicles and general upkeep. Seminole is operating under the 2015 Building Codes except for electrical and it is 2014 NEC. James Moon is the Code Enforcement official for the City of Seminole. His assistant is Amy Churchwell. They work together to protect the safety and health of the citizens in The City of Seminole by ensuring that the buildings and land are in accordance with housing and zoning ordinances. In addition to inspection and investigation of properties and buildings, code enforcement determines the nature of environmental hazards, nuisance violations and unsafe building conditions.CODE ENFORCEMENT401 N Main Seminole, OK 74868 (405) 382-4330 ext 108 The Winter Springs Building Division is responsible for ensuring the public life safety and welfare through the enforcement of federal, state, and local codes governing construction. Our staff reviews plans, issues building permits, and performs inspections to ensure Code compliance related to aspects of life-safety, structural integrity, handicap accessibility, and electrical, plumbing, fuel gas, heating, and air conditioning systems and energy.
