The exams are only valid for the date that you registered for. If you do not show up for the exam, you forfeit the exam fees. If you want to cancel or reschedule an exam, you must do it in at least 24 hours before the exam time else you forfeit the exam fees. For retake exam and other information related to the exam can be found here Why should I take the certification? Is there any market value to the certification? For those candidates without prior experience, certifications will help prove to your employers that you have the understanding and skills required for job roles that require knowledge of MySQL products. The certification is not a guarantee that you will get the JOB, the certification will only improve your chances of getting the job. For those candidates with experience, the certification will boost your resume and chances are, there will be something new that you will learn. Where can I study from? You can go through our MySQL Tutorial which will aid you in your MySQL Certification studies. Where can I get MySQL Certification papers for practice? Take the mock MySQL Certification Test. General recommended preparation tip Hands on experience combined with good reference materials will increase your chances of passing the exams. Practice how to install MySQL and learn how it works Practice answering the questions in the certification practice questions/guides and take them seriously as if it's the real exam that you are answering When using the study guide, paraphrasing is very useful. Read important sections such as; Definitions, Examples, Commands, Best Practices, etc. Re-write them in your own words. This will help you understand the underlying concepts much better. The MySQL reference manual found at link is also a valuable reference resource. Also, you can purchase "Oracle Certification Practice Exam" from here Oracle Certifications are among the most sought after badges of credibility for expertise in the Information Technology marketplace. An Oracle Certification demonstrates that you have a solid understanding of your job role and of MySQL products. Consultants, developers and DBAs use Oracle certifications on MySQL to show prospective employers and customers that they are current on the latest features, tools and tricks.
